ORDINANCE

WHEREAS, The City of Chicago is a home rule unit of government pursuant to Article VII, Section 6(a) of the Illinois Constitution; and

WHEREAS, Pursuant to its home rule authority, the City of Chicago may exercise any power and perform any function pertaining to its government and affairs, including promoting the health, safety, and welfare of its citizens; and

WHEREAS, Cigarette smoking has been linked to various cancers and lung diseases; and

WHEREAS, While many struggle with their nicotine and tobacco addiction, those seeking to quit their "habit" have sought several modes of treatment: medicine from their doctors, nicotine patches, and, in recent years, e-cigarettes; and

WHEREAS, E-cigarettes, which first entered the United States market in 2007, are electronic inhalers meant to simulate cigarette smoking. E-cigarettes use a heating element that vaporizes a liquid solution. Some e-cigarettes release nicotine, while some merely release flavored vapor. They are designed to mimic traditional smoking implements in their use and appearance; and

WHEREAS, Though e-cigarettes have been advertised as a "safe" alternative to smoking, they are not currently regulated by the United States Food and Drug Administration (FDA), leaving states and cities to adopt their own regulations; and

WHEREAS, Several states, including Illinois, have adopted legislation banning the sale of e-cigarettes to minors; and

WHEREAS, The Center for Disease Control and Prevention (CDC), in a report released on September 5, 2013, stated that ten percent of high school students surveyed reported using e-cigarettes in 2012, up from 4.7 percent in 2011; and

WHEREAS, In the same study, the CDC reported that these same minors also admitted to smoking conventional cigarettes at the same time; and

WHEREAS, CDC Director Tom Frieden, M.D., M.P.H., has stated that the "increased use of e-cigarettes by teens is deeply troubling. Nicotine is a highly addictive drug. Many teens who start with e-cigarettes may be condemned to struggling with a lifelong addiction to nicotine and conventional cigarettes."; and

WHEREAS, According to Tim McAfee, M.D., M.P.H., the Director of the CDC Office on Smoking and Health, "it should be the goal of all to protect the health of our youth and to keep them from experimenting or using any tobacco product. These dramatic increases in usage suggest that developing strategies to prevent marketing, sales, and use of e-cigarettes among youth is critical."; and

WHEREAS, The City of Chicago finds that e-cigarettes, with their sweet flavored cartridges, represent a calculated attempt by manufacturers to entice children and young adults to purchase and use their devices, and constitute an indirect marketing campaign which targets youth; and

WHEREAS, The City of Chicago finds that the public health and safety of its citizens, particularly its children, is endangered by the lack of comprehensive regulation of e-cigarettes; and
WHEREAS, Regulation of the distribution, sale, and use of e-cigarettes is a legitimate role of government relating to the welfare of its citizens; now, therefore

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHICAGO:
